

Mek adds new Distributor in India

[Mek \(Marantz Electronics\)](#), a leading provider of Automatic Optical Inspection solutions, has recently expanded its global distribution and service network with the addition of Indian company, [ACD Renaissance LLP](#).

The Pune based enterprise has taken over sales and service for Mek's Automated Optical Inspection (AOI) and Solder Paste Inspection (SPI) systems in India.

Electronics manufacturing in India is going through a period of rapid growth with more and more global players announcing plans to manufacture there, as well as many new, local companies starting in the electronics arena.

[ACD Renaissance](#) was founded in 2017 and is an end to end solutions provider for PCB assembly processes, SMT equipment, Through hole assembly equipment, sales and service support. At their core is a desire to share their knowledge and experience with customers by supporting process optimization and yield improvements.

"Mek is excited to expand its presence in the region by working with ACD Renaissance. They are well respected by customers and have demonstrated ability to grow markets for electronics manufacturing equipment," said Henk Biemans, CEO of Mek.

"We are very excited to be working with Mek." stated Manohar Singh of ACD Renaissance. "India is certainly one of the most important markets for the Electronics manufacturing/ Semicon / APAS sectors and we see huge potential in the country from markets such as EMS, Automotive, Electric Vehicles, Consumer Electronics, Medical, Telecoms and Defence & Aerospace. Mek's AOI and SPI equipment is an important addition to our current product range."

About Mek (Marantz Electronics Ltd)

A former division of Marantz well known for its high quality Audio/Video products, Mek Japan (Marantz Electronics Kabushiki Kaisha), developed its first AOI system in 1994. Developed to inspect PCB assemblies for correct component placement and soldering, the company's original AOI system was designed for use in Marantz factories. Proving to be a highly successful, cost-effective alternative to traditional human inspection, Mek developed its first generation commercial system in 1996. With a steadily growing installed base, MEK Japan and its European/American headquarters, Mek, have sold over 8000 units worldwide to date. Well established as a leading force in AOI technologies and 5D post-print SPI systems, the company now also manufactures Conformal Coating Inspection systems drawing on the proven technology.
