Modular Full 3D AOI System For THT  
Solder Joints And THT Components

## Modular Full 3D AOI System For THT Solder Joints And THT Components

### Benefits

- **Full 3D Measurement Optimized For THT Solder Joints Post Wave And Selective Soldering**  
Volumetric data for detection of soldering defects, pin height measurement, annular ring coverage and detection of "blow" holes

---

- **Full 3D Measurement Including THT Components**  
Capability to measure and inspect also the THT components

---

- **Max. PCB Size 550mm x 550mm (21.7" x 21.7")**  
Large PCB sizes or pallets are supported. The optics move in X,Y and Z directions to cover the inspection area

---

- **High Clearance Between PCB Surface And The Optics**  
200mm (7.9") THT components side and 100mm (3.9") THT solder side clearance for a no exceptions inspection

---

- **Compatible With Mek Catch System For MES Gateways, Repair, Real Time Monitoring And SPC**  
Catch System is compatible with Windows 11 and is a complete suite for data collection, display and statistics

---

- **Reflection Free Measurement**  
Colour and glare optimized. Unwanted reflections from shiny surfaces are removed

---

- **High Speed Measurement**  
Using modern processor and storage power for parallel imaging, calculation and data transmission

---

- **Windows® 11 Based Software**  
Ensuring high security data protection, demanded by modern IT departments

---

- **Large Field Of View (FoV)**  
60mm x 60mm (2.4" x 2.4") FoV ensures measurement of larger objects and high speed inspection

---

- **Z-Axis Moving Optical Unit**  
Focus and position optimally for varying PCB and component distances or warpage

---

- **Compatible With Mek EZPro**  
EZPro is the software tool developed by Mek for ultra fast automatic programming of full measurement recipes

---

- **Modular Inspection Possibilities: Bottom, Top Or Dual**  
Possibility to combine 2 SpectorBOX X systems for simultaneous dual sided measurement

---

- **Simple Compatibility With Integrators**  
3rd party turn-key solutions readily available. SpectorBOX X systems fit conveniently inside main frames
